

TO WHOM IT MAY CONCERN:

Dear Sir/ Madam

I am veterinary technologist and registered with SAVC.

I have done my 3years National Diploma in veterinary technology; I received my combination in classroom and laboratory instruction. I come from the background of serology, parasitology, molecular biology and microbiology areas

I am currently volunteering at University of Pretoria in the department of tropical diseases in the serology laboratory. My experience in the serology includes processing of samples, ELISA testing, HA, HI test and the rapid agglutination plate tests. I am able to meet the projected standards for quality and correctness in analysing of specimens.

My five months experience at TUT Veterinary Skill laboratory includes: providing everyday laboratory services in order to facilitate diagnosis for disease treatment pertaining to all aspect of laboratory work. The work integrated learning program including five days training in IDEXX laboratory, MSD Animal health and ukuthula bio bank.

My thirst for making new discoveries is a trait that does not let me sit idle at my work place even in the event of little work. My knowledge of technical laboratory operations and my ability to perform quality control procedures will allow me to help continue and expand the success of your facility.

I am confident that my profile will surely surpass your expectations and offer me an opportunity to show my skills and talent, I look forward to be part of your team. Please feel free to contact me if you need information regarding my credentials.

Thank you for your time and consideration.

Thanks and regards

OCN Seloane
